Never try Cactus

I have my worst food that I hate . I am going to pick the same thing when I go to restaurants. I am usually tempted by new food . That changed , when I tried a new food. It is called cactus.

One day I was in my room playing and my mom was at the store get some thing to make food. When she got back home she got cactus I said I don't want to eat that it does not look good . ¨Then my mom said you will like it then I said no I won't like.She said you will like cactus then I said ok¨. ¨My mom said go wait in you room it will be ready soon I said ok¨. I was playing a game then my mom said it is done I said ok I won´t like this. She made tortilla and and put the cut up cutis in the tortilla . Then she gave me it I took a bite it was the most nasty food ever it was like trash in my mouth.I told my mom I don't like his food I is the most disgusting food I ever tasted . Mom I like your step dad and your dad like it why don't you like it then she said to take 15 bite out of it then you will like it then I said okay . I took 15 bite out of it I don't not like it at all . That was for nothing so my mom know that I don't like cactus .

So never all alaway try new food if it look bad don't try it will taste really bad . So if you like try new food you don't have to follow his it is the people that hate try new food so never try cutis it will be bad for mouth but if you do alaway cut the little thing that can hurt you then you cut it into piece then that what I know just that part to make cutis .
